## **ABSTRACT**

A two-way warp knitted fabric which is a knitted fabric having a warp knitted fabric construction formed by knitting a polytrimethylene terephthalate yarn in the front and an elastic yarn in the back and which has a knitted fabric density ratio from 1.55 to 2.35 calculated by the following formula:

knitted fabric density ratio = [(number of
courses)/2.54 cm]/[(number of wales)/2.54 cm] (1)

The knitted fabric is a stretchable knitted fabric material for clothing in which curl formation is suppressed, which gives a soft feeling, and which does not yellow.
